Cooperative Extension - 4-H & Youth Development

DSU Extension's 4-H and Youth Development Program reaches and teaches youth living in both rural and urban areas who are underserved by traditional youth programs. Activities are designed and implemented to teach Delaware youth how to become more involved in their communities by helping them develop the social and developmental skills they need for success in life.

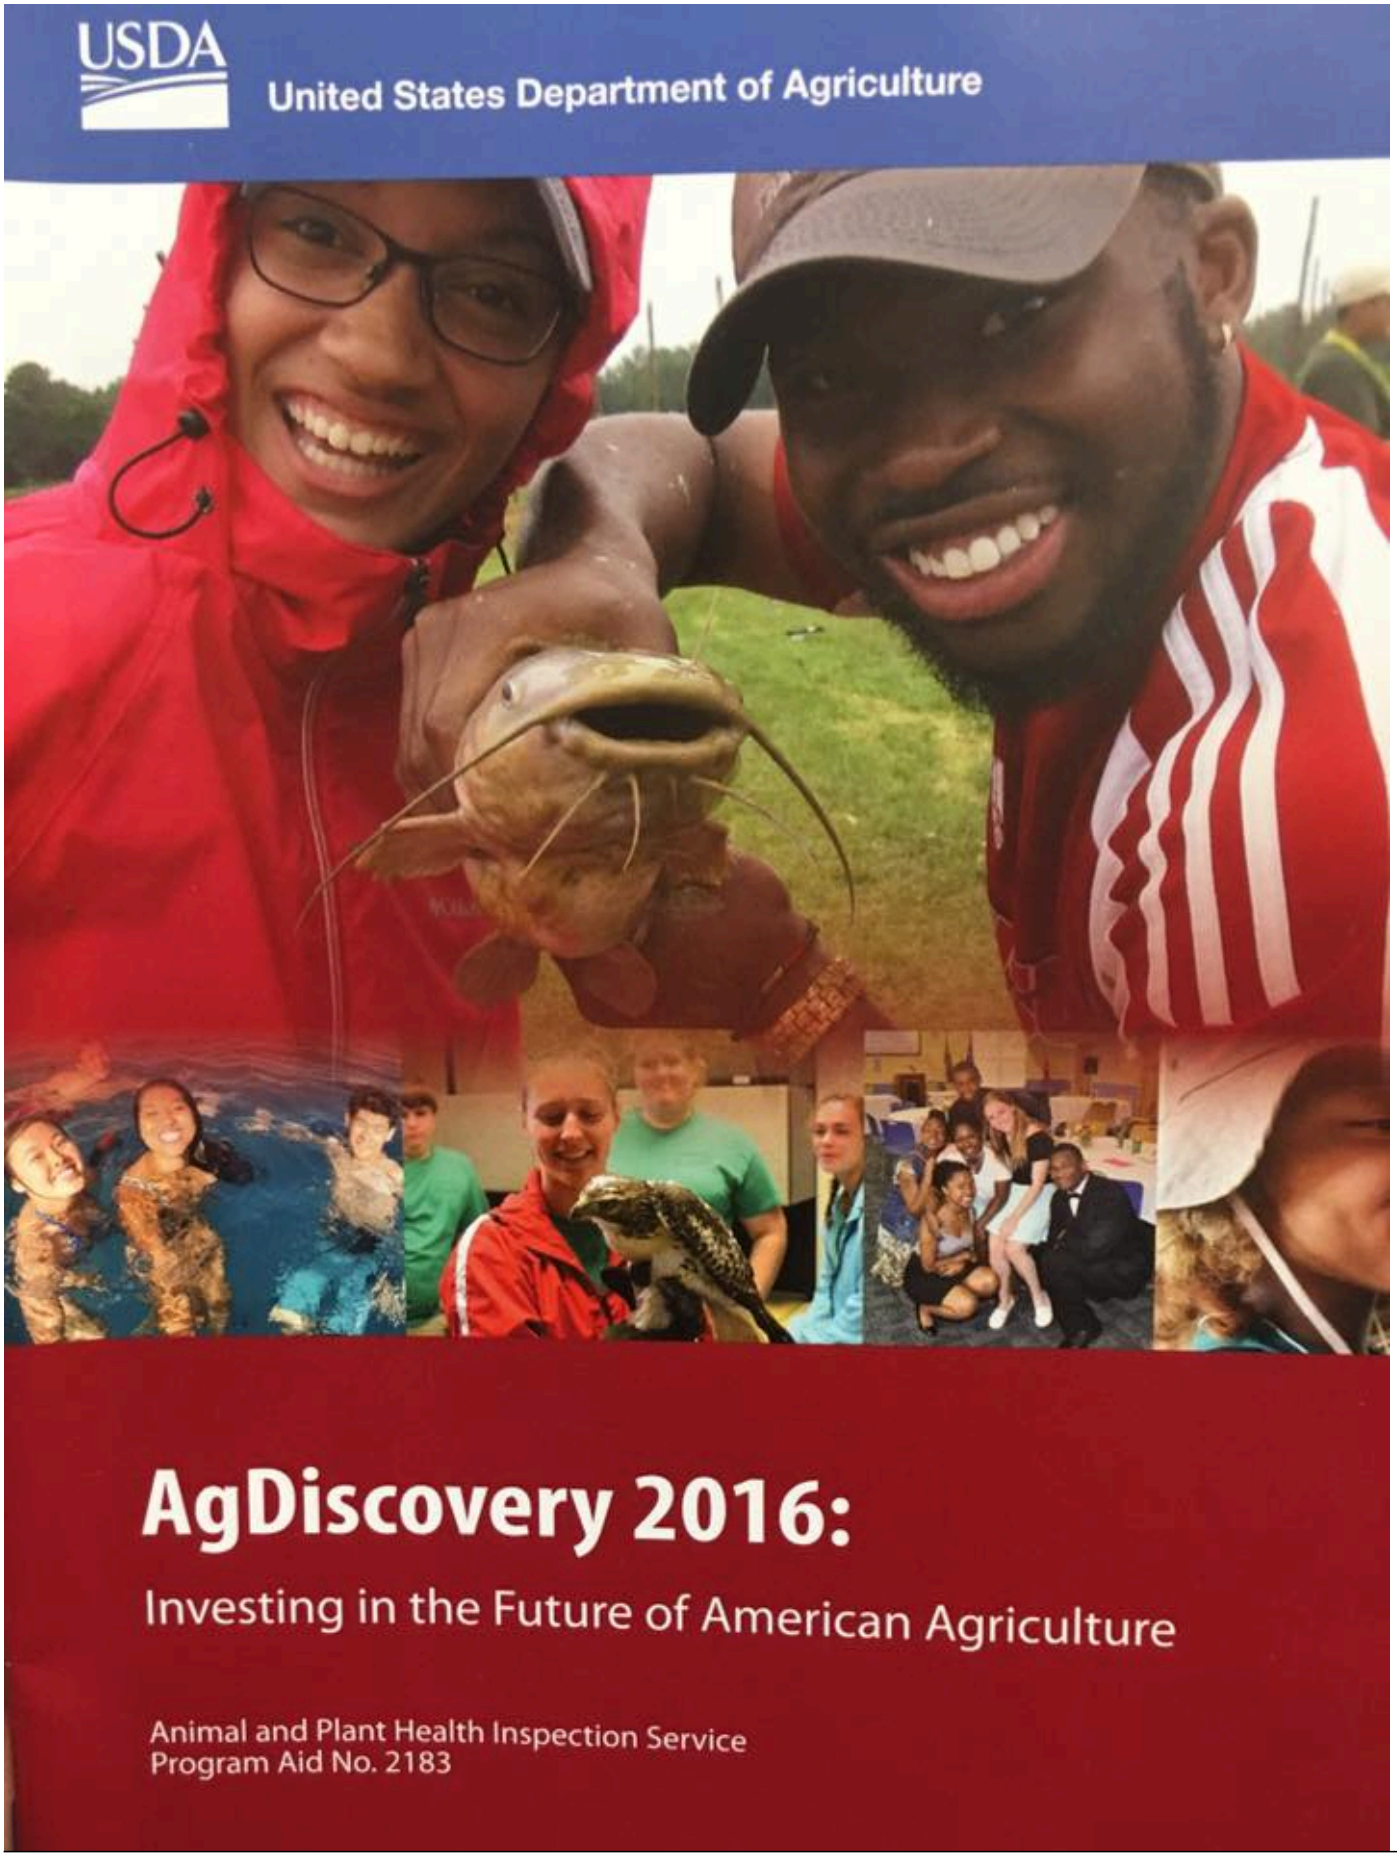
4-H The Power of Youth

Delaware State University | College of Agriculture and Related Sciences

Cooperative Extension Education in Agriculture, 4-H and Home Economics, Delaware State University, University of Delaware and United States Department of Agriculture cooperating. Dr. Dyremple B. Marsh, Dean and Administrator. It is the policy of Delaware Cooperative Extension that no person shall be subjected to discrimination on the grounds of race, color, sex, disability, age, or national origin.

AgDiscovery @ DSU



USDA
United States Department of Agriculture
AgDiscovery 2016:
Investing in the Future of American Agriculture
Animal and Plant Health Inspection Service
Program Aid No. 2183

AgDiscovery is a national, residential summer camp that exposes middle through high school aged students to agriculture careers like animal science, veterinary medicine, agribusiness, plant pathology and aquaculture.

This 2-4 week program allows participants to live on a college campus and learn about agricultural science from university professors, practicing veterinarians, industry representatives, and professionals working for the U.S. government.

Students who participate in AgDiscovery gain experience through hands-on labs, workshops, field trips and other group and team building activities.

View the 2016 AgDiscovery brochure HERE [4]to learn more about the program.

Get the application here: Aphis AgDiscovery 2016 Application [5]
