Testing Services and Programs

If our customers are happy, we are happy.

The mission of the Testing Services and Programs Office is to assist DSU students and the surrounding communities in assessing their knowledge, skills, and abilities as relates to higher and continuing education by providing a variety of programming to engage and promote student success and testing credentialing certifications. This is accomplished through the use of written, computer-adapted assessments, workshops and testing instruments.

The testing center is committed to a diverse environment that encourages students and staff to function independently while demonstrating their inter- and intra-dependence as members of the collegiate community. We set the standard of excellence in the testing center by providing quality services to our DSU community, surrounding communities in Delaware and the Atlantic Region.

Delaware State University, University College, Testing Services and Programs subscribes to the NCTA Professional Standards and Guidelines

DSU's Testing Services and Programs subscribes to the testing guidelines, standards and procedures of the National College Testing Association and a part of the Consortium of College Testing Centers. Our office staff serves as the NCTA Liaison for Delaware.
