CMNST: On a Mission

Teaching	Research	Service

WE ARE

the College of Mathematics, Natural Sciences and Technology…

Vision Statement

The vision of the College of Mathematics, Natural Sciences, and Technology is to provide a high quality education in the sciences that prepares students for the global workforce, to promote scientific inquiry and innovation, to accelerate knowledge-based economic growth in our region, and to enrich scientific understanding within the community.

Mission Statement

The College of Mathematics, Natural Sciences and Technology provides undergraduate and graduate students with a rigorous and supportive student-centered academic environment that promotes learning and critical thinking. The College prepares students to meet global scientific and technological challenges, contributes to the diversification of the national science, technology, engineering and mathematics workforce, and offers non-science majors a science and mathematics foundation that strengthens their ability to fulfill their career goals.

The College promotes excellence in scientific research and innovation, supports the generation and dissemination of new knowledge through the pursuit of strategic research areas that have the potential to become nationally renowned, and aspires to enhance the regional economy through scientific and technological innovation. The College strives to enrich the scientific knowledge of our communities, especially those associated with K-12 science and mathematics education.

Our Core Values

Community
Integrity
Diversity
Scholarship
Outreach
