

Student Health Center Staff

Dear Parents and Prospective Students:

The department of Student Health Services welcomes you. In the student health center we provide quality and confidential medical care to the DSU student. The health care team has a vast amount of experience and works diligently to meet your health care needs as well as assist you in making healthy lifestyle choices. We look forward to partnering with you in the maintenance of your health.

The medical staff consists of board-certified Nurse Practitioners and Registered Nurses. The medical staff evaluates, treats and manages acute and chronic medical problems with a focus on illness prevention, health maintenance and optimum health. The support staff consists of a Front Office Coordinator and a Medical Assistant.
