DSU Named as Tree Campus USA

Delaware State University?s observance of Arbor Day included being honored with a new distinction? it has been named a ?Tree Campus USA.?

DSU hosted Gov. Jack Markell?s annual observance of Arbor Day on May 3 in the Martin Luther King Jr. Student Center, where the governor announced the honor to DSU.

The Tree Campus USA designation goes to schools that have an implemented plan for tree care that is supported by school allocations, an established Campus Tree Advisory

Committee, related education outreach, as well as a real form to be a fixed of the polygon of the committee.

DSU main campus in Dover currently has hundreds of trees that are represented by 130 different species.

DSU President Harry L. Williams commended the University?s Herbarium staff for their work in identifying the species of trees on our campus.

?That work led Dr. Susan Yost, who is the Herbarium educator, to create the Campus Tree Walk and the DSU Tree Map in 2006 on campus,? Dr. Williams said. ?The tour ? given about seven to eight times a year ? gives our students and the public an opportunity to learn more about the different species of trees and other plants on campus.?
