Curriculum for Master's Degree in Plant Science

Core Courses		
All students within the major are required to take the following courses.		
29-551	Experimental Design	3
29-560	Research Problem in area of Specialization	3
29-561	Thesis Research	6
29-572	Department Seminar attendance required each semester, credit given during the semester that the theses research is presented.	1
		13
Elective Courses (18 hours)		
Other Graduate level courses by advisement.		
23-501	Organismal Biology	3
23-502	Cell and Molecular Biology	3
23-504	Population Biology	3
23-611	Advanced Genetics	3
23-641	Evolution of Vascular Plants	3
24-521	Biochemistry	3
29-511	Plant Breeding	3
29-531	Crop Biochemistry, Physiology, Ecology	3
29-541	Plant Anatomy and Morphology	3
29-581	Advanced Forage and Minor Crop Rroduction and Utilization	3
