### Requirements for Unconditional Admission

For admission to the MBA program applicants must have earned a Baccalaureate degree from an accredited college or university and possess the ability to do graduate work of high quality. Our formula criterion for admission incorporates and attempts to balance the candidate's undergraduate GPA and GMAT scores as follows:  $200 * \text{Undergraduate GPA} + \text{GMAT Score} \geq 975$ . Candidates who have attained the required GMAT score will be admitted unconditionally.

Applicants who were non-business majors or do not meet the foundation course requirements are required to complete them upon admittance to the program.

Foundation Course Requirements:

- Accounting
- Economics
- Finance
- Management Information Systems
- Marketing
- Quantitative Methods

Where applicants are required to complete such foundation courses, this must be done prior to enrolling in associated MBA core courses. The foundation courses may be completed at the undergraduate level at DSU or from any accredited university.

Any or all foundation courses may be waived based upon:

### Scholarship and Tuition Waivers

The MBA program through the College of Business offers limited scholarship funds and tuition waivers. Given the limited nature of these scholarship funds students are encouraged to explore other sources of financial support.
