

Admissions Information & Requirements

Admission Philosophy

Delaware State University provides admission to qualified Delaware residents, out-of-state residents and international students based on criteria established by the Middle States Commission on Higher Education (MSCHE) and the policies of the University. In accordance with our mission, Delaware State University is obligated to identify the level of preparedness of the students it admits, and to establish appropriate policies that ensure accurate placement of students in courses and academic programs that provide the greatest opportunity for success in their academic pursuits.

Admission to Delaware State University is granted to all applicants whose academic and individual qualifications demonstrate a proficiency for success at the University. All applicants are given equal consideration for admission, without regard to race, creed, national origin or disability. The University reserves the right to close admission when no further space remains.

Students who wish to secure admission to the University should apply as soon as possible to ensure that space is available. It is advisable for high school students to apply for admission to the University at the conclusion of their eleventh (11th) grade year when final grades for the year have posted.

All degree seeking students must apply formally through the Office of Admissions. An official notice of eligibility for admission will be sent to each applicant after credentials have been evaluated. If accepted, students must follow the official University enrollment, orientation and registration procedures applicable to academic status.

Admission may be granted to applicants who have a certificate or diploma from an accredited four-year school or senior high school. It is recommended that students seeking admission to the University follow a college preparatory curriculum in high school. Applicants must produce a satisfactory high school record. A minimum cumulative GPA of 2.0 or better on a 4.0 scale and a 'C' in the 19 minimum course units is required. Though heavily considered, admission to the University is not granted solely on the basis of grades and test scores. The University takes a very holistic approach in evaluating applications for admission. Community service, demonstrated leadership ability, and special talent is also considered when evaluating applications for admission.

The following 19 minimum course units are required:

English	Writing, Literature, and Oral Communication	
Mathematics	Courses must include Algebra I & II and Geometry or the equivalent (Recommend a fourth high school course)	
History	One (1) world history and one (1) other history	
Social Studies	Civics, American Government, Economics, Geography or Psychology (Two units recommended)	
Science	Courses with a laboratory. Must include one (1) or more of the following: Biology, Chemistry, Earth Science, or Physics	
Foreign Language	Recommend within the same language. If within the same language, there must be course work in two different levels	
Electives	May include any additional class from subject areas listed above or Art, Theatre/Drama, Music, and Physical Education	

The test used for admission purposes is the Scholastic Assessment Test (SAT) or the American College Test (ACT). The tests taken in December or January of the senior year of secondary school are preferred. Results of tests completed during the junior year are acceptable. Students should submit the three-section SAT or ACT for admission consideration. Delaware State University requires test scores of 800 on the SAT (math and critical reading combined), test scores of 880 or above on the 2016 redesigned SAT (math and critical reading combined), or a 17 or better composite score on the ACT. Please note, as of March 2016, the College Board has launched a redesigned SAT. For more information about the redesign—please visit the [College Board website](#) [1].

Applicants must submit a notarized copy of their GED certificate with their application and fee to be considered for admission.

Project Success Program

Should an applicant's grade point average and/or test scores fall below the University's admission standards, an offer of conditional acceptance may be extended contingent upon the applicant's enrollment in and successful completion of the Project Success Program for conditionally admitted students. Students are extended this offer at the discretion of the Office of Admissions, as seats in the program are limited.

Program Jumpstart

Program Jumpstart is a six (6) week residential summer and cultural enrichment program that provides a transitional opportunity for first-time freshmen who will enter the University during the fall semester. Students with a cumulative high school GPA of 2.7 or better are invited to participate in the program.

New Student Orientation

It is mandatory for all new students to participate in New Student Orientation to enroll at the University, which includes registering for classes. Specifically, new freshmen and transfer students complete the orientation process in the summer immediately preceding their first fall semester or the spring date immediately preceding their first spring semester at the University. New students may complete and return the form enclosed in their acceptance packet or they may download the form from the University's web site. A fee of \$150.00 is required for all new freshmen and a fee of \$100.00 is required for all new transfer students. Students will not be allowed to participate in New Student Orientation if they have not paid the fee.
